

Section 401 Water Quality Certification Program

December 2003

Last updated December 30, 2003

Applicant:
Elsinore Valley Municipal Water District

Agent:
none

Project Name:
EVMWD Elsinore Line Turnout

Receiving Water:
Lake Elsinore Outlet Channel

Project Description:
Construction of a turnout structure for the purpose of discharging treated effluent into Lake Elsinore

Contact at Regional Board:
Adam Fischer (909) 320-6363 file # 332003-46-APF

Applicant:
Orange County Transportation Authority

Agent:
DMJM+Harris

Project Name:
Rail transit bridge over Santiago Creek for second railroad track.

Receiving Water:
Santiago Creek

Project Description:
Construction of a second parallel railroad transit bridge over Santiago Creek in the City of Santa Ana

Contact at Regional Board:
Adam Fischer (909) 320-6363 file # 302003-30-APF

Applicant:
Friends of Riverside Airport, LLC

Agent:
none

Project Name:
AG Park Site

Receiving Water:
un-named drainage tributary to the Santa Ana River

Project Description:
Installation of a temporary stream crossing for heavy equipment associated with the removal of concrete debris within the stream. This project is part of a larger plan of development involving the extension of Jurupa Avenue and the construction of residential homes and associated infrastructure on the same site. The site is located at east of Crest Avenue, west of Rutland Avenue, north of Manitoba Place, in the City of Riverside.

Contact at Regional Board:
Adam Fischer (909) 320-6363 file # 332003-47-APF

Applicant:
San Bernardino County Flood Control

Agent:
none

Project Name:
Post wildfire debris flow mitigation.

Receiving Water:
Sand Canyon Basin, Waterman Spreading Grounds, Daly Basin, Cajon Creek

Project Description:

- 1) Removal of debris within Sand Canyon Basin affecting approximately 10 acres. Impacts to waters of the US are not yet determined.
- 2) Removal of debris within the Waterman Spreading Grounds affecting approximately 20 acres. Impacts to waters of the US are not yet determined.
- 3) Removal of debris within Daly Basin affecting approximately 15 acres. Impacts to waters of the US are not yet determined.
